Our Pecan Trees with three year roots and one year top. Notice lateral roots and sturdy tops

Instructions for Ordering

Please use our order sheets if convenient, and fill them out in full.

Terms

Cash in advance or we will ship C.O.D. where one-fourth of the amount accompanies the order. We will accept your personal check, money order or bank draft.

Shipping Season

Our shipping season for trees is from Nov. 10 to April 1. Our season for shipping cold storage bud and graftwood closes July 10th. Fresh wood will be shipped from July 10th to Oct. 10th.

Pecan Information

We do not recommend planting the pecan in commercial orchards in the following counties: Willacy, Starr, Jim Hogg, Brooks, Kennedy, Cleburg, Nueces, San Patricio.

VARIETIES TO BE PLANTED IN DIFFERENT LOCALITIES

We recommend the following varieties for Louisiana, Arkansas and the following East Texas and East Oklahoma counties: Success, Schley, Delmas and Stuart, Moore and Money Maker. The Schley and Delmas should be planted on higher uplands as they scab in the low fertile bottom.

The counties of Texas in which these varieties should be planted are as follows: Aransas, Anderson, Bee, Brazoria, Bowie, Freestone, Franklin, Fort Bend, Calhoun, Chambers, Camp, DeWitt, Gregg, Grimes, Cherokee, Angelina, Harrison, Cass, Harris, Goliad, Galveston, Hardin, Houston, Henderson, Jasper, Jackson, Jefferson, Leon, Lavaca, Liberty, Marion, Matagorda, Montgomery, Madison, Morris, Newton, Nacogdoches, Oak, Orange, Red River, Refugio, Rusk, Panola, San Jacinto, Sabine, Smith, Titus, Victoria, Upsher, Wood, Tyler, Walker. No doubt, there are some upland ridges in these counties where Burkett or Western Schley would do all right. Consult your county agent or local pecan grower.

The following counties in Oklahoma should also use the varieties recommended above: Cherokee, Adair, Muskogee, Sequoyah, McIntosh, Haskell, Leflore, Latimer, Pittsburg, Hughes, Pushmataha, McCurtain, Chactaw.

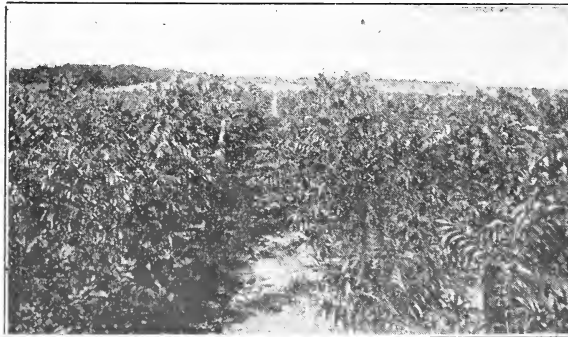

In the Central portion of Texas and Oklahoma both Eastern and Western varieties may be planted successfully. Using the Eastern varieties on the low bottom soils in the extreme Eastern portion, and the Western varieties on the upland soil in the western portion of this

Some of our three-year-old trees being dug by WHITE MEN
by hand with tap-roots whole as near as possible

We pack our trees so they will carry any distance and reach
customers in first class condition.

Three year Burkett nursery rows. Each tree well spaced so
as to grow good individual trees.

section. For this overlapping belt, we recommend Success, Schley, Moore, Delmas and Stuart. Of the Western varieties, Burkett, Texas Prolific, Western Schley and Halbert. The Texas Prolific and Halbert will scab if planted in low ground too far east.

We would not recommend planting Halbert farther south than Waco in this belt on account of scab. The counties embraced in this territory suited for both Eastern and Western varieties in Texas are: Lamar, Fannin, Grayson, Cooke, Wise, Denton, Collin, Hunt, Delta, Hopkins, Rains, Rockwall, Dallas, Tarrant, Parker, McLennan, Limestone, Robertson, Falls, Bell, Williamson, Milam, Brazos, Caldwell, Comal, Gaudalupe, Gonzales, Bexar, Wilson, Karnes, Atascosia, Frio, Zavala, Maverick, DeWitt, LaSalle, McMullin, Live Oak, Duval and Jim Wells. FOR OKLAHOMA: Bryan, Marshall, Love, Jefferson, Cotton, Stevens, Carter, Murry, Johnson, Atoka, Pontotoc, Garvin, Pottawatomie, Seminole, Hughes, Okfuskee, Lincoln, Okmulgee.

For the vast scope of country West of Oklahoma City, Fort Worth and Austin, I would recommend the following varieties only: Burkett, Western Schley, Halbert, Texas Prolific and other Western varieties. This applies to Western Texas, Western Oklahoma, New Mexico and Arizona.

Distance to Plant Pecan Trees

50x50 feet, 17 trees to the acre
55x55 feet, 14 trees to the acre
60x60 feet, 12 trees to the acre
70x70 feet, 9 trees to the acre
30x60 feet, 24 trees to the acre
60x60 is standard.

Pecan Soil

The best pecan soils are fertile land, well drained, with a subsoil that the tap root can penetrate, yet well supplied with moisture.

Best Size of Trees to Plant

We prefer planting trees with 3-4 ft., 4-5 ft., 5-6 ft., or 6-7 ft. one or two year tops with three or four year-old roots.

Digging the Holes

In river or creek bottoms dig holes with post hole digger 10 inches wide and 4 feet deep. On other soils, dig holes 30 inches wide and 30 inches deep with a post hole digger, hole 2 feet deep in the center of this first hole. If rock or hard pan is encountered, dynamite should be used.

Our pecan trees bear three years after planting

Note the low spreading top.
One of my Burketts, 6 years old producing 25 pounds

Halbert 18 months after we sold it to C. H. Donegan, Seguin, Texas. One of his Alexander's bore 17 nuts the year he bought it, a Halbert 27 nuts the second year.

Planting the Trees

Trees should be heeled in or planted immediately after arrival. Prune off broken roots with a sharp knife. Set the tree two inches deeper than it formerly grew in the nursery row. Don't fertilize with fresh manure. One or two buckets of water will settle the soil around the roots. Leave loose soil on top, but mound it up around the tree to prevent water standing in the hole. Cut one-half to one-third of the top back after planting or instruct us to prune before shipping.

Western Varieties of Pecans

BURKETT: Originated in Callahan county, Texas. Our most popular variety for both shade tree and orchard planting. Nuts sometime weigh less than 40 per pound, thin soft shell, plump kernel, very delicious and separates readily from the shell. Our start of Burkett is from the original tree. Bears the third year after planting.

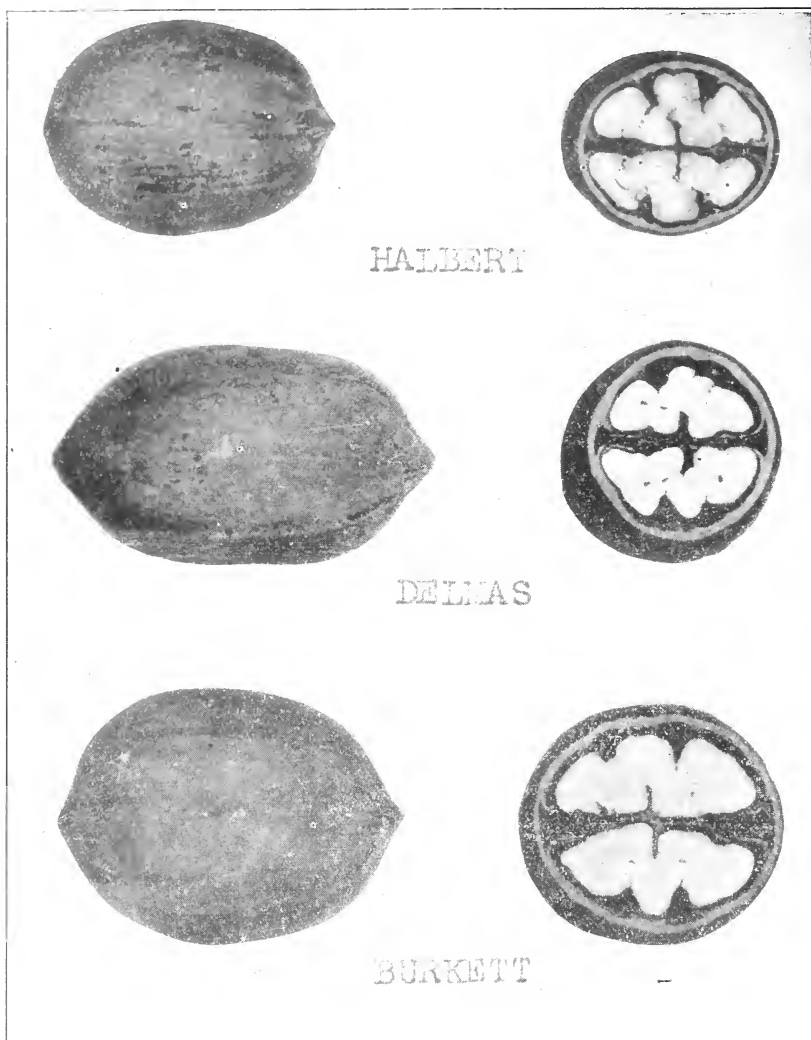

WESTERN SCHLEY: From San Saba county, Texas. Becoming very popular. Nuts long and beautiful, a good cracker with 60 per cent meat. Trees vigorous and beautiful. Self sterile. This variety is not related to Schley as it produces from two to three times as many nuts for us. Will bear the third year after planting.

TEXAS PROLIFIC—San Saba, Texas. Altitude 1700 feet. A seedling of San Saba introduced by E. E. Risien, and regarded as one of his best varieties. The tree is healthy and prolific, bears in the nursery row. The Queen of England used to buy a barrel of Texas Prolific nuts each year from Mr. Risien, and wrote him she attributed her long life to eating these nuts. The nut is long and beautiful, perfectly marked. The foliage is silky and indicates fine breeding. I have never had enough trees or buds of this variety to take care of my orders. Order early and have me reserve your trees. I sometimes have these ordered a year ahead of delivery. Usually bears second year after planting.

ALEXANDER—Coleman, Texas. 52 nuts per lb., and 56 per cent meat. This is the most prolific and profitable variety on my place. I have a one-year old bud of it with 91 nuts. It should not be used on drouthy soil as it sometimes fails to fill under these conditions.

KINCAID—San Saba County, Texas, large; shell medium thickness; kernel plump; quality good; flavor sweet. Very prolific. Especially adapted to Western conditions.

Easy to grow—Early to bear

Guarantee

We guarantee trees to reach the customer in satisfactory condition and to satisfy on delivery. We guarantee varieties to be true to label, and will replace trees free of charge for any that proves otherwise. Make complaints within five days if trees are not satisfactory on arrival. WE DO NOT GUARANTEE TREES TO LIVE.

Hardy Pecan Trees that Bear Young

Cull Pecan Trees: 50c each.

NOTE: Cull Trees are any trees having a blemish so as to keep them from being first-class.

Eastern Varieties

DELMAS—Jackson County, Miss. Size, large to very large; shell moderately thin; kernel plump; quality good to very good; flavor excellent. A vigorous growing variety. The most beautiful shade tree.

STUART—Jackson County, Miss. More extensively planted in the East than any other variety. Size medium to large; shell slightly thick; kernel plump; quality good; flavor excellent.

SCHLEY—Jackson County, Miss. Shell very thin; kernel plump; quality very rich; flavor excellent; moderately productive but a regular bearer. Subject to scab near the coast.

SUCCESS—Jackson County, Miss. Size large to very large; shell of average thickness; kernel plump; flavor rich; quality very good. Generally reported as being highly productive; gaining in favor.

MOORE MONEYMAKER.

Pecan trees grown by us being loaded on trucks to be hauled to one of our customers at El Paso, Texas. One tree in his planting made a growth of seven feet the second year.

THOMAS BLACK WALNUT—Large thin shell black walnut; shelling 32 per cent meat. Perfectly adapted to our conditions, Buds, grafts and trees.

WILSON'S ENGLISH WALNUT—A hardy variety that will not freeze in this section; runs 20 nuts per pound; six inches in circumference. Our introduction can be successfully budded on native black walnut. We have our first trees ready for market this year. Supply limited.

PRICES ON WALNUT TREES

Thomas and Wilson's Wonder Walnut trees: Medium size, \$1.50 each; large size, \$2.50 each.

Why Trees Fail to Live After Transplanting

The most common causes of trees dying after transplanting are as follows:

1st. Allowing the roots to dry or freeze between the time of digging and planting.

2nd. Planting the tree shallower than it grew in the nursery.

3rd. Using fresh manure in the hole.

4th. Too much water around the roots during spring months.

If the tree is to be fertilized at the time of planting it is better to use leaf mould soil, well rotted barnyard manure, or two pounds bone meal, well mixed with the soil.

Estimated Production of a Well Cared for Pecan Orchard of Western Varieties

3rd year, a few nuts.

4th year, 3 pounds per tree.

5th year, 8 pounds per tree.

6th year, 12 pounds per tree.

7th year, 18 pounds per tree.

9th year, 45 pounds per tree.

10th year, 60 pounds per tree.

15th year, 100 pounds per tree.

Increasing production each year until two hundred years old. I consider a pecan orchard the best agricultural investment that can be made, a sure income for old age, and a good insurance policy for the family.

**We Oversold More Than 3,000 Pecan Trees Last Year. We
Urge Our Customers to Place Orders Early.**

Easy to grow—Early to bear

Reduced Prices on Buds and Graftwood

Postage and Express paid

WESTERN VARIETIES: Halbert, Burkett, Kincaid, Squirrer's Delight, Jersey, Texas Prolific, San Saba Improved, Alexander, Williamson, Western Schley, Onliwon and others:

\$1.00 per 25; \$2.50 per 100; \$17.50 per 1,000

EASTERN VARIETIES: Stuart, Success, Delmas and Schley.

\$.75 per 25; \$2.00 per 100; \$12.50 per 1,000

Pecan buds 5c each when less than 25 of varieties ordered.

WALNUTS: Wilson Wonder English Walnut \$.75 doz.; \$5.00 per 100.

Thomas Black Walnut: \$.75 per dozen; \$4.00 per 100.

NOTE:—Write for prices on lots above 5,000.

EUREKA PERSIMMON: Buds or grafts: 50c per dozen; \$3.00 per 100.

PATCH BUDDING KNIFE, made with safety razor blades, 75c each.

WAXED CLOTHS, ready to use, 25c per 100.

BUDDING STRINGS, cut in lengths, 15c per 100.

Note:—I have nearly 100 varieties of pecans. So if you want buds or grafts of any variety not named above, please write me as I likely have it.

R. A. Bowden's Pecan Orchard, Rising Star, Texas. (Not for sale)

Halbert six months after we sold it to W. M. Wright, Dublin,
Texas, maturing five nuts.

A Pecan Orchard is a Good Investment

Because the pecan nut is the most delicious, nutritious and highest priced nut in the world.

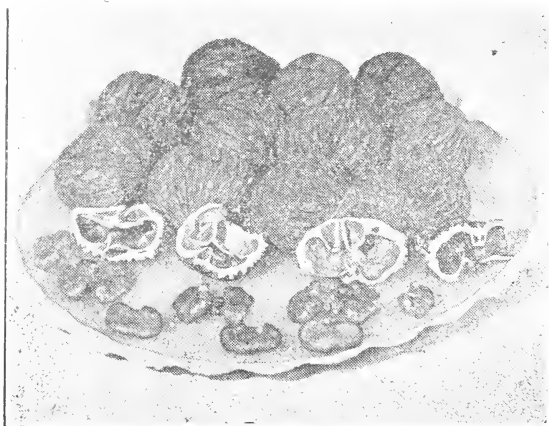

Because budded pecan trees begin to bear from two to three years after being planted; come into commercial bearing from six to seven years; will live several hundred years and increase in value from \$50 to \$100 per acre. each year.

Because the pecan orchard will provide for the education of the children, a support for the family and insurance for old age, and a legacy to posterity.

Express prepaid on all nursery stock except pecan and walnut trees.

Wilson Wonder Walnuts from three year top.

Thomas Black Walnut Showing How Easily They Can Be Shelled

FRUIT TREES

Peach Trees

Prices on peach trees:

Each	Dozen	Per 100
2-3 ft 25c	\$2.50	\$20.00
3-4 ft 35c	\$3.60	\$25.00
4-5 ft 50c	\$5.00	\$35.00

MAY FLOWER. Red and juicy, first peach to ripen in May.

EARLY WHEELER. June. A profitable cling.

ARP BEAUTY. Like Elberta, but month earlier.

ARKANSAS TRAVELER. Sure bearer, ripens last of June. Very much like Old Mixon cling.

J. H. HALE. Like Elberta, but larger.

ELBERTA. July. Standard for canning.

OLD INDIAN. The genuine, always bears.

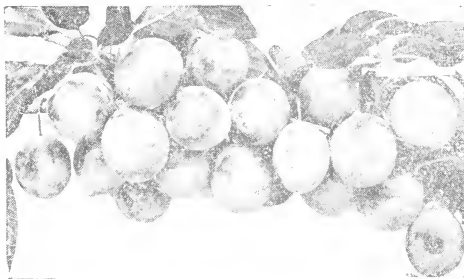

ELBERTA CLING. Like Elberta, except cling.

HENRIETTA. Really an Elberta cling for September.

EARLY ROSE, best flavored cling peach, ripe in June. 3-4 ft. 60c each.

Plum Trees

Each	Dozen	Per 100	Each	Dozen	Per 100
2-3 ft 30c	\$3.00	\$20.00	3-4 ft. 40c	\$4.00	\$30.00
	4-5 ft. 50c	\$5.25			\$39.00

BOTAN: Trees upright fruit bright red, fine plum for all purposes.

BURBANK: Very heavy bearer and fine fruit for canning and all purposes.

AMERICA, fruit yellow with red cheeks, extra fine for canning and jellies.

SHIRO, very large yellow plum, if you know this plum you will want some. Very delicious.

METHLEY, purple fruit with watermelon red meat, very fine.

BRUCE, the finest of all plums, fruit brilliant red. 3-4 trees, 50c.

To accommodate our pecan customers we are offering nursery stock of the best varieties of fruit trees and ornamentals.

Apples

YELLOW TRANSPARENT, large yellow apple that ripens first of June.

RED JUNE, finest June apple for eating purposes.

Prices on **APPLE**, **CRAB-APPLE**, **PEAR**, **PLUM**, **APRICOT** and **CHERRY**:

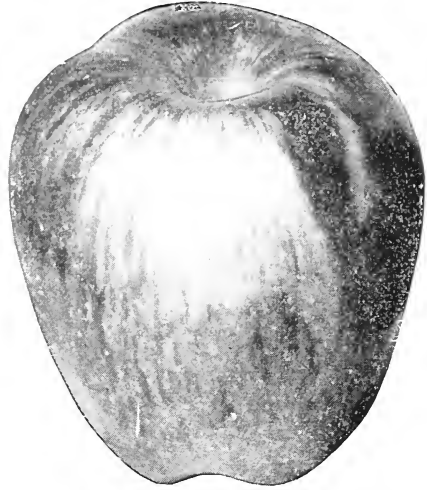

Price same as plums.

THE JOHNATHAN APPLE, large red, fine quality.

DELICIOUS, well named, large and very delicious.

GRIMES GOLDEN, Healthy trees, large yellow fruit, beautiful.

KING DAVID, cross between Johnathan and Winesap. Very desirable fruit.

CRAB APPLES

TRANSCENDANT, tree fine for shade, bears heavy after tree is old.

Pears

The **GARBER**, fine quality fruit for canning, ripens in August.

KEIFFER, sure and heavy bearer, fruit keeps for weeks after being gathered, very delicious when ripe. Fine for canning and preserves.

Eureka Persimmon

	Each	Dozen	Per 100
2-3 ft.	50c	\$5.00	\$40.00
3-4 ft.	60c	\$6.00	\$50.00
5-6 ft.	\$1.00	\$10.00	\$75.00

The reason I am selling the Eureka Persimmon is because I consider it the best Japanese Persimmon. The fruit is large, tomato shape, and a beautiful red color several days before ripe. The commercial orchard of persimmons will pay.

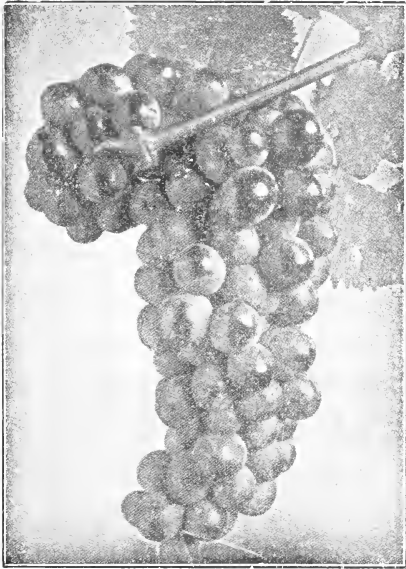

Figs

Prices on Figs:

1 yr. 30c each. \$3.00 per dozen.

2 yr. 50c each. \$5.00 per dozen.

Magnolia fig, large straw colored fruit, bears the first year.

Grapes

PRICES ON GRAPES

	Each	Dozen	Per 100
2 yr. 50c		\$4.00	\$30.00
1 yr. 25c		\$2.50	\$15.00

NIAGIRA, large white grape, very fine for this section.

CONCORD, large black fruit, fine for grape juice and for eating.

CARMAN, free from insects, pests, purple fruit, one of the best.

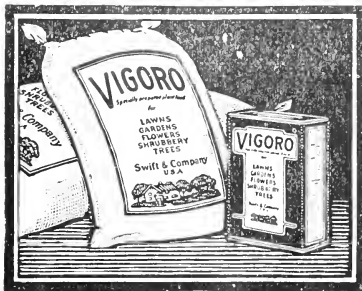

HERBEMONT, profuse bearer, wine colored, ripens in August.

MUSCADINES, 50c each, \$5 dozen, \$35.00 per 100.

Cherries

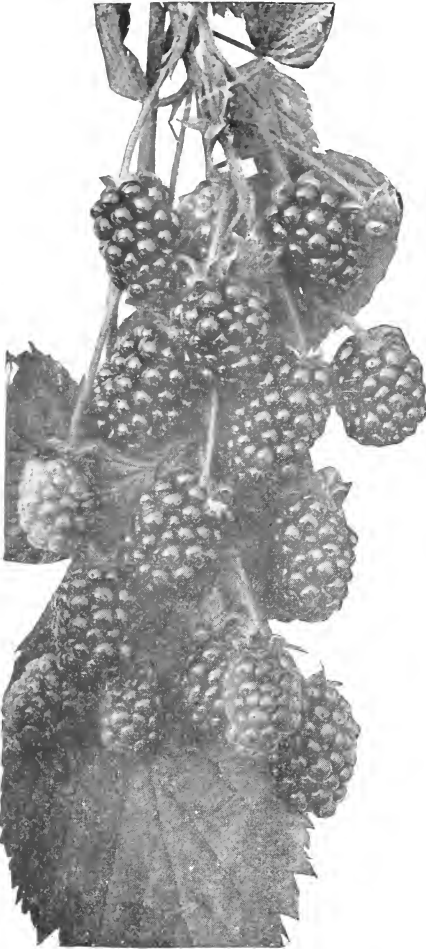

COMPASS CHERRY PLUM, sure bearer, cross between cherry and a plum.

RICHMOND, one of the best cherries.

VIGORO F. O. B. Stephenville, especially prepared to supply lawns, gardens, shrubbery, and trees with all of the plantfood elements needed for rapid, sturdy and luxuriant growth. It is clean, odorless, and easy to apply. It can be sown by hand like grass seed. Complete directions in every bag. Prices: 5 lb. package, 50c; 25 lb. bag, \$1.75; 50 lb. bag, \$3.00; 100 lb. bag, \$5.00.

Postage and express paid on all nursery stock except Pecan and Walnut trees.

Blackberries and Dewberries

Prices on dewberry and blackberry, except Iola:

50c per doz. \$3.00 per 100.
\$20.00 per 1000.

AUSTIN Dewberry, the best berry for home market.

EARLY WONDER Berry, very large berry with small seed, easy to harvest.

AUSTIN THORNLESS Dewberry, absolutely thornless berry, very fine.

AULO. This is a new berry, a cross between the Logan and Austin.

10c each, \$4.35 per 100

STRAWBERRIES, 75c per dozen, \$1.50 per 100, \$5.00 per 1000.

KLONDIKE. LADY THOMPSON, Everbearing.

Prices on Mulberry Trees

HICKS EVERBEARING, bears profusely, trees fine for shade.
ENGLISH, large, delicious fruit, early bearer.

3-4 ft. 40c. \$5.00 per dozen.

4-5 ft. 60c. \$6.00 per dozen.

5-6 ft. 75c. \$7.50 per dozen.

Petrified Wood

I have 300 tons of this beautiful and interesting rustic stone for sale. Our office is built largely of this material. If interested, state quantity and write for prices.

Express prepaid on all nursery stock except pecan and walnut trees.

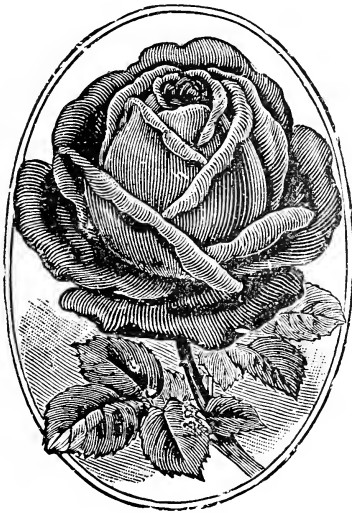

Apricots

EARLY GOLDEN, earliest to ripen, bright yellow with red cheek.
MOORPARK, fine fruit, especially for canning, yellow with red cheek.

Old-Fashioned Corn Field Beans

I have sold more than \$600.00 per acre from these beans. They are a large variety of meaty pole bean that bears over a longer period than any other variety of bean known. The best bean for fall market. Price per ounce, 15c; per pound 50c.

Roses

Each	Dozen
1 yr. 35c	\$3.50
2 yr. 50c	\$5.00

RED RADIANCE, one of the finest for cut flowers. Beautiful buds borne on long stiff stems, bright red and very hardy.

METEOR, a free bloomer and hardy, dark velvety red.

FRANCIS SCOTT KEY, a beautiful full bloom red rose that will last for days without shattering. One of the best.

CHARLES DOUGLAS, brilliant red and noted for its pretty buds.

AMERICAN BEAUTY, one of the most popular red roses.

HADLEY, said to be the best and most perfect red rose. Very hardy and free blooming.

PINK ROSES

ILLCHESTER, very popular among
 rists for cut flowers. Beautiful pink roses for bouquets.

COLUMBIA, fine for cut flowers, my favorite rose. A hardy bush and free bloomer.

MAMAN COCHET, a beautiful pink rose both in bud and full flower.

LA FRANCE, a delicate pink, tinged with white and very fragrant.

SHELL RADIANCE, same as pink radiance except delicate shell pink.

PINK RADIANCE. We sold 1000 customers Pink Radiance roses last season. One half of my own rose garden is Pink Radiance. Long stems and perfect buds. Fine for cut flowers.

MME. BUTTERFLY, a delicate combination of white, yellow and pink, all in one rose.

YELLOW ROSES

LOS ANGELES, a California favorite, salmon yellow, with beautiful buds.

SUNBURST, orange yellow, exquisitely beautiful.

LADY HILLINGTON. Almost like Sunburst, but a better bloomer. The plants are always full of beautiful buds and flowers.

LUXEMBOURG, a combination of yellow and pink, long stems, fine for cut flowers. A thrifty grower and free bloomer.

WHITE ROSES

K. A. VICTORIA. Our best white rose. Creamy when first open, fading into white.

MAMAN COCHET (White). A beautiful white rose, tinted pink.

CLIMBING ROSES

Climbing American Beauty. Climing Victoria, Climbing Columbia and Marschael Neil.

SPECIAL ROSES

Prices on Special Roses: 1 yr. plants 65c. 2 yr. plants 85c.
GOLDEN EMBLEM, H. T. (1917). A blend of yellow, pink and gold, in perfect buds on long stems, glossy foliage. Special.

WILLOMERE (Per.) 113. A cross between two beautiful roses. A rich schrimp pink with shaded yellow center and red wing toward edge of petals. Long buds on good stems. Special.

TALISMAN, Special (H. T.) 1928. A cross between Ophelia and Claudius Pernet. No other rose has yielded such a sensation. It has won Gold Medals at both National and International flower shows. Its color is a combination of shadings of gold, apricot yellow and deep pink. The color brightens as the flowers develop. Long buds, with good stems. Beautiful foliage and vigorous growth. Why pay \$2.00 each for this rose.

CLAUDIUS PERNET (Per.) 1920. A true sunflower color in a large rose, an exquisitely beautiful rose when full bloom. This rose is a wonder for dry sunny sections.

Hedge Plants

CALIFORNIA PRIVET. An evergreen upright hedge.

AMoor PRIVET. Small leaves, making an evergreen graceful hedge.

1-2 ft. 15c each, \$1.20 dozen, \$8.00 per 100.

2-3 ft. 20c each, \$2.00 dozen, \$12.00 per 100.

3-4 ft. 25c each, \$2.50 dozen, \$15.00 per 100.

Evergreens

CEDRUS DEODORA, very much like blue Spruce, but grows well here. Will grow 30 to 40 feet in height. 1 ft. plants \$1.00 each. 2 ft. plants \$2.00.

ARIZONA CYPRESS. A beautiful blue cedar from Arizona. 1 ft. 1.00.

BERKMAN'S GOLDEN ARBOR VITAE. A pyramidal dark green medium size plant. 15-inch plant, \$1.00.

ITALIAN CYPRESS. Tall and slender. Will grow perfectly upright. 2 ft. plants \$1.00.

ROSEDALE ARBOR VITAE. Light green lacy foliage, very compact. 21-15-inch plants, \$1.00.

PFITZER JUNIPER. Low spreading creeping Juniper with green foliage. 1 ft. plants \$1.00.

JUNIPER CHINESES. A hardy Juniper of Pyramidal growth with variegated foliage. 12-15 inch plants \$1.25.

SANTALINA, or Dusty Miller. 10-inch clumps, 75c each. 12-15-inch clumps, \$1.00 each.

TRUE LAVENDER. A beautiful compact evergreen sage, with fragrant foliage. 12-inch clumps, \$1.00 each; 15-inch clumps, \$1.50 each.

ARTEMESIA or WHITE KING. Silvery gray foliage. 15-inch plants, 75c each.

Balled Evergreens at the nursery.

Cannas

PRESIDENT. Scarlet red, everblooming canna with green foliage. The best red canna.

MRS. CONRAD. A good salmon pink canna.

KING HUMBERT. A dwarf canna, with orange flowers streaked with red and gold.

CITY OF PORTLAND. A beautiful pink.

EUREKA. The best white canna for all purposes.

Prices on all Cannas, except Mrs. Du Pont, 15c each. \$1.00 per doz.

MRS. DU PONT. A new pink, producing large heads of ruffled flowers. We paid \$1.50 each for our start of this canna. We can now sell these at 35c each or three for \$1.00.

Express prepaid on all nursery stock except pecan and walnut trees.

Broad Leafed Evergreens

ABELIA. An evergreen and everblooming shrub, with glossy leaves and pink flowers, which are very fragrant.

EUNONYMUS JAPONICA. Rich, glossy leaves, upright in growth. One of our best evergreens.

WAX LEAF LEGUSTRUM. A broad leafed evergreen of rare beauty. Is beautiful planted with Naninda.

JASMINE HUMILE. A hardy evergreen, producing beautiful yellow flowers from early spring up to late fall.

CLIMBING EUONYMUS, similar to Euonymus, except clings to walls and trees.

Prices on Broad Leafed Evergreens:

12-18 inches, 50c each, \$5.00 per dozen.

18-24 inches, 75c each, \$7.50 per dozen

2-3 ft. \$1.00 each, \$10.00 per dozen

3-4 ft. \$1.50 each, \$15.00 per dozen

NANDINA. Evergreens which retain its dark red foliage and coral red berries throughout the winter. One of the best evergreens.

8 to 10 inch, \$1.00; 12 to 14 inch, \$1.50.

THORNLESS CACTI, single slab, 15c each, \$1.50 per dozen.

Single slabs rooted, 25c each, \$2.50 per dozen.

Plants with three slabs or more, 50c each, \$5.00 per dozen.

Vines

QUEEN'S WREATH. Grows from a tuber which should not be planted out until after March first. Begins blooming in June, producing racemes of pink flowers from 12 to 15 inches long, blooming constantly until frost. We sell these tubers by the thousands, and the demand is increasing. Order from us and get the genuine.

HONEY SUCKLE, red or yellow. An evergreen vine.

CLEMATIS. We have only the white, which we consider the best Clematis. It begins blooming in late summer, producing a mass of white flowers for several weeks.

BOSTON IVY. A very desirable vine for clinging to brick or rock walls.

VIRGINIA CREEPER. A very desirable vine for covering old walls or fences.

Prices on vines: 1 yr. 30c each. 2 yr. 50c each.

Shade Trees

CHINESE ELM. Very desirable and quick growing shade tree.

SYCAMORE. One of the most beautiful trees for shade.

UMBRELLA CHINA. Does well in any soil, very dense shade.

LOMBARDY POPLARS. A tall upright tree of the cottonwood family.

CAROLINA POPLAR.

BLACK LOCUST.

3-4 ft. 35c each, \$3.50 dozen.

4-5 ft. 50c each, \$5.00 dozen.

5-6 ft. 75c each, \$7.50 dozen.

6-8 ft. \$1.50 each, \$15.00 dozen.

8-10 ft. \$2.00 each, \$20.00 dozen.

SCARLET JAPAN QUINCE. Scarlet flowers; cover bush before foliage appears.

CORAL BERRY. Small blooms, but beautiful red berries that stay on plants all winter.

CREPE MYRTLE. Grows anywhere, covered with a mass of bloom from June until October. Colors, pink or red.

RED SALVIA GREGIA. Beautiful everblooming shrub, covered with red blooms.

WEIGELA DIERVILLA. Large trumpet shape flowers of beautiful rose.

WEIGELA EVA RATHKE. Beautiful crimson flowers.

~~8 to 10 inch \$1.00. 12 to 14 inch \$1.50.~~

Prices on shrubs:

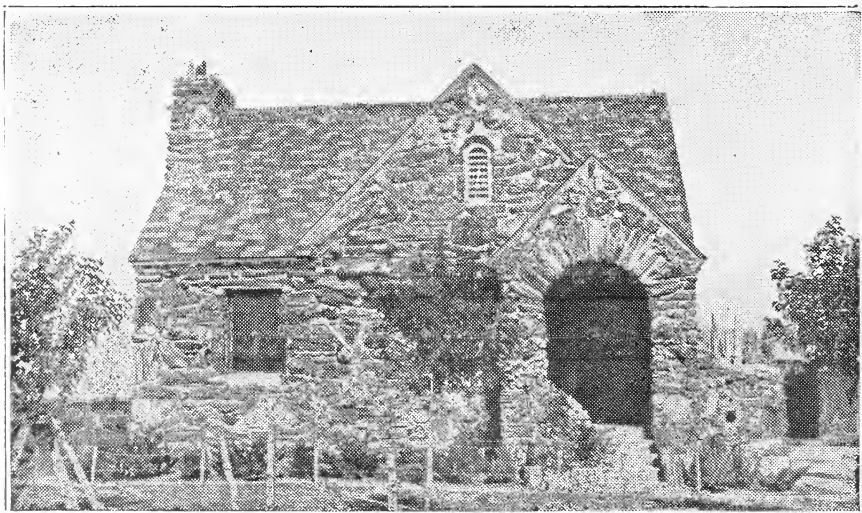

1 yr. 35c each, \$3.50 per doz.

2 yr. 50c each, \$5.00 per dozen.

3 yr. 75c each, \$7.50 per dozen.

Express prepaid on all nursery stock except pecan and walnut trees.

This will introduce to you Mr. Ross R. Wolfe, owner and manager of Wolfe's Pecan Nursery of Stephenville, Texas, who is probably as familiar with pecan soils and varieties in the native pecan belt of Oklahoma, Texas, New Mexico, Arizona and California as any man living. He is closely allied with civic work in his own community and affiliated with the leading Pecan Growers' and Nurserymen's Associations and is Ex-President of the Texas Pecan Growers' Association.

OUR OFFICE

Made of Petrified Wood and Fossils. Wierd, interesting and educational. 25,000 persons have visited this during the past year.
